

Fred Hartman – ERP Consulting – Mfg. Enterprise Solutions

Fred specializes in helping clients evaluate and implement enterprise software, particularly manufacturing Enterprise Resource Planning (ERP) solutions. He has been implementing ERP solutions in small-to-mid-size businesses for the past 20+ years. Operating as an independent consultant for the past 16 years. Full cycle services: ERP Software Solution “Fit” assessment, Pilot/Demo Build, Train/Implement/Re-Implement, Support

He delivers complete solutions, primarily by partnering with Value Added Resellers of leading ERP software solutions, with a focus on Microsoft Dynamics GP (formerly Great Plains) solutions.

A Chemical Engineer and a Wharton MBA, Fred has over 35 years of broad industry experience in a wide range of areas:

Computer Systems Implementation	Product Development/Venture Launch
Product Marketing	Sales
Manufacturing Engineering	Supply Chain Management
Marketing Research	Business Planning
Financial Analysis	Re-Engineering & Change

Fred’s experience includes 4 years with Kodak and 16 years with DuPont in various roles, prior to establishing himself the past 20+ years as a Manufacturing ERP Consultant.

Fred is a Microsoft Business Solutions Certified Professional in Manufacturing Applications – Dynamics GP (formerly Great Plains). He is currently working to develop competency in Microsoft Dynamics 365 and Office 365. He has also implemented and certified in the Sage MAS 500, IFS Applications and WorkWise TCM manufacturing solutions. While his primary focus has been with manufacturing enterprises and their operations, he consults in the breadth of the ERP product offerings (supply chain, manufacturing, planning, and financials).

A firm believer in customer satisfaction and quality, Fred enjoys consulting - utilizing his broad experience, flexibility and problem solving skills to help clients grow business and improve business performance.
